Subject: Confidential Convention Update

As a follow-up to our conference call earlier tonight I cannot reiterate the importance of what our leadership has shared with us. There is the perception that there will be a low turnout for the convention and I tend to agree, which is a great opportunity for us.

KC has "publically" stated that he opposes changing the party plan to force conventions, which he needed to say to keep the establishment off his back.

However, as discussed on our call, WE MUST GET CONTROL OF THE CONVENTION AND WE MUST OBTAIN A 2/3rds MAJORITY in order to do what must be done. We are keeping KC and Mark out of these discussions so that they can claim deniability, so please do not share the plan with them. I have been told by Russ that Susan is very much in agreement with our plan and is committed to do whatever needs to be done on her end.

Don't allow our supporters to stay home, don't allow them to be comfortable. I have some ideas that I will be drafting in the next couple of days to send you which will create that fire to get our people out. Remember, we are at war and fighting for liberty.

This is a once in a lifetime opportunity and we must get our people to the convention and change the Republican Party and destroy the Republican establishment forever - I have been waiting for most of my life for this moment. With only a few more votes we will be in full control.

For Liberty,

"We have to understand why we as individuals are important. I don't believe for a minute that we have special privileges or rights or freedoms because we belong to a group. I don't like hyphenated Americans. We are individuals that deserve the rule of law and the protection of the law." Ron Paul, 02-23-2012
